

# How to Join a Care Team in Doximity Dialer

Set Up Guide for Registered Nurses,  
Social Workers, and Other Healthcare Workers

# Joining a Care Team

If you're an MD/DO, NP/PA/MedStud use Dialer now:  
[doximity.com/dialer](https://doximity.com/dialer)

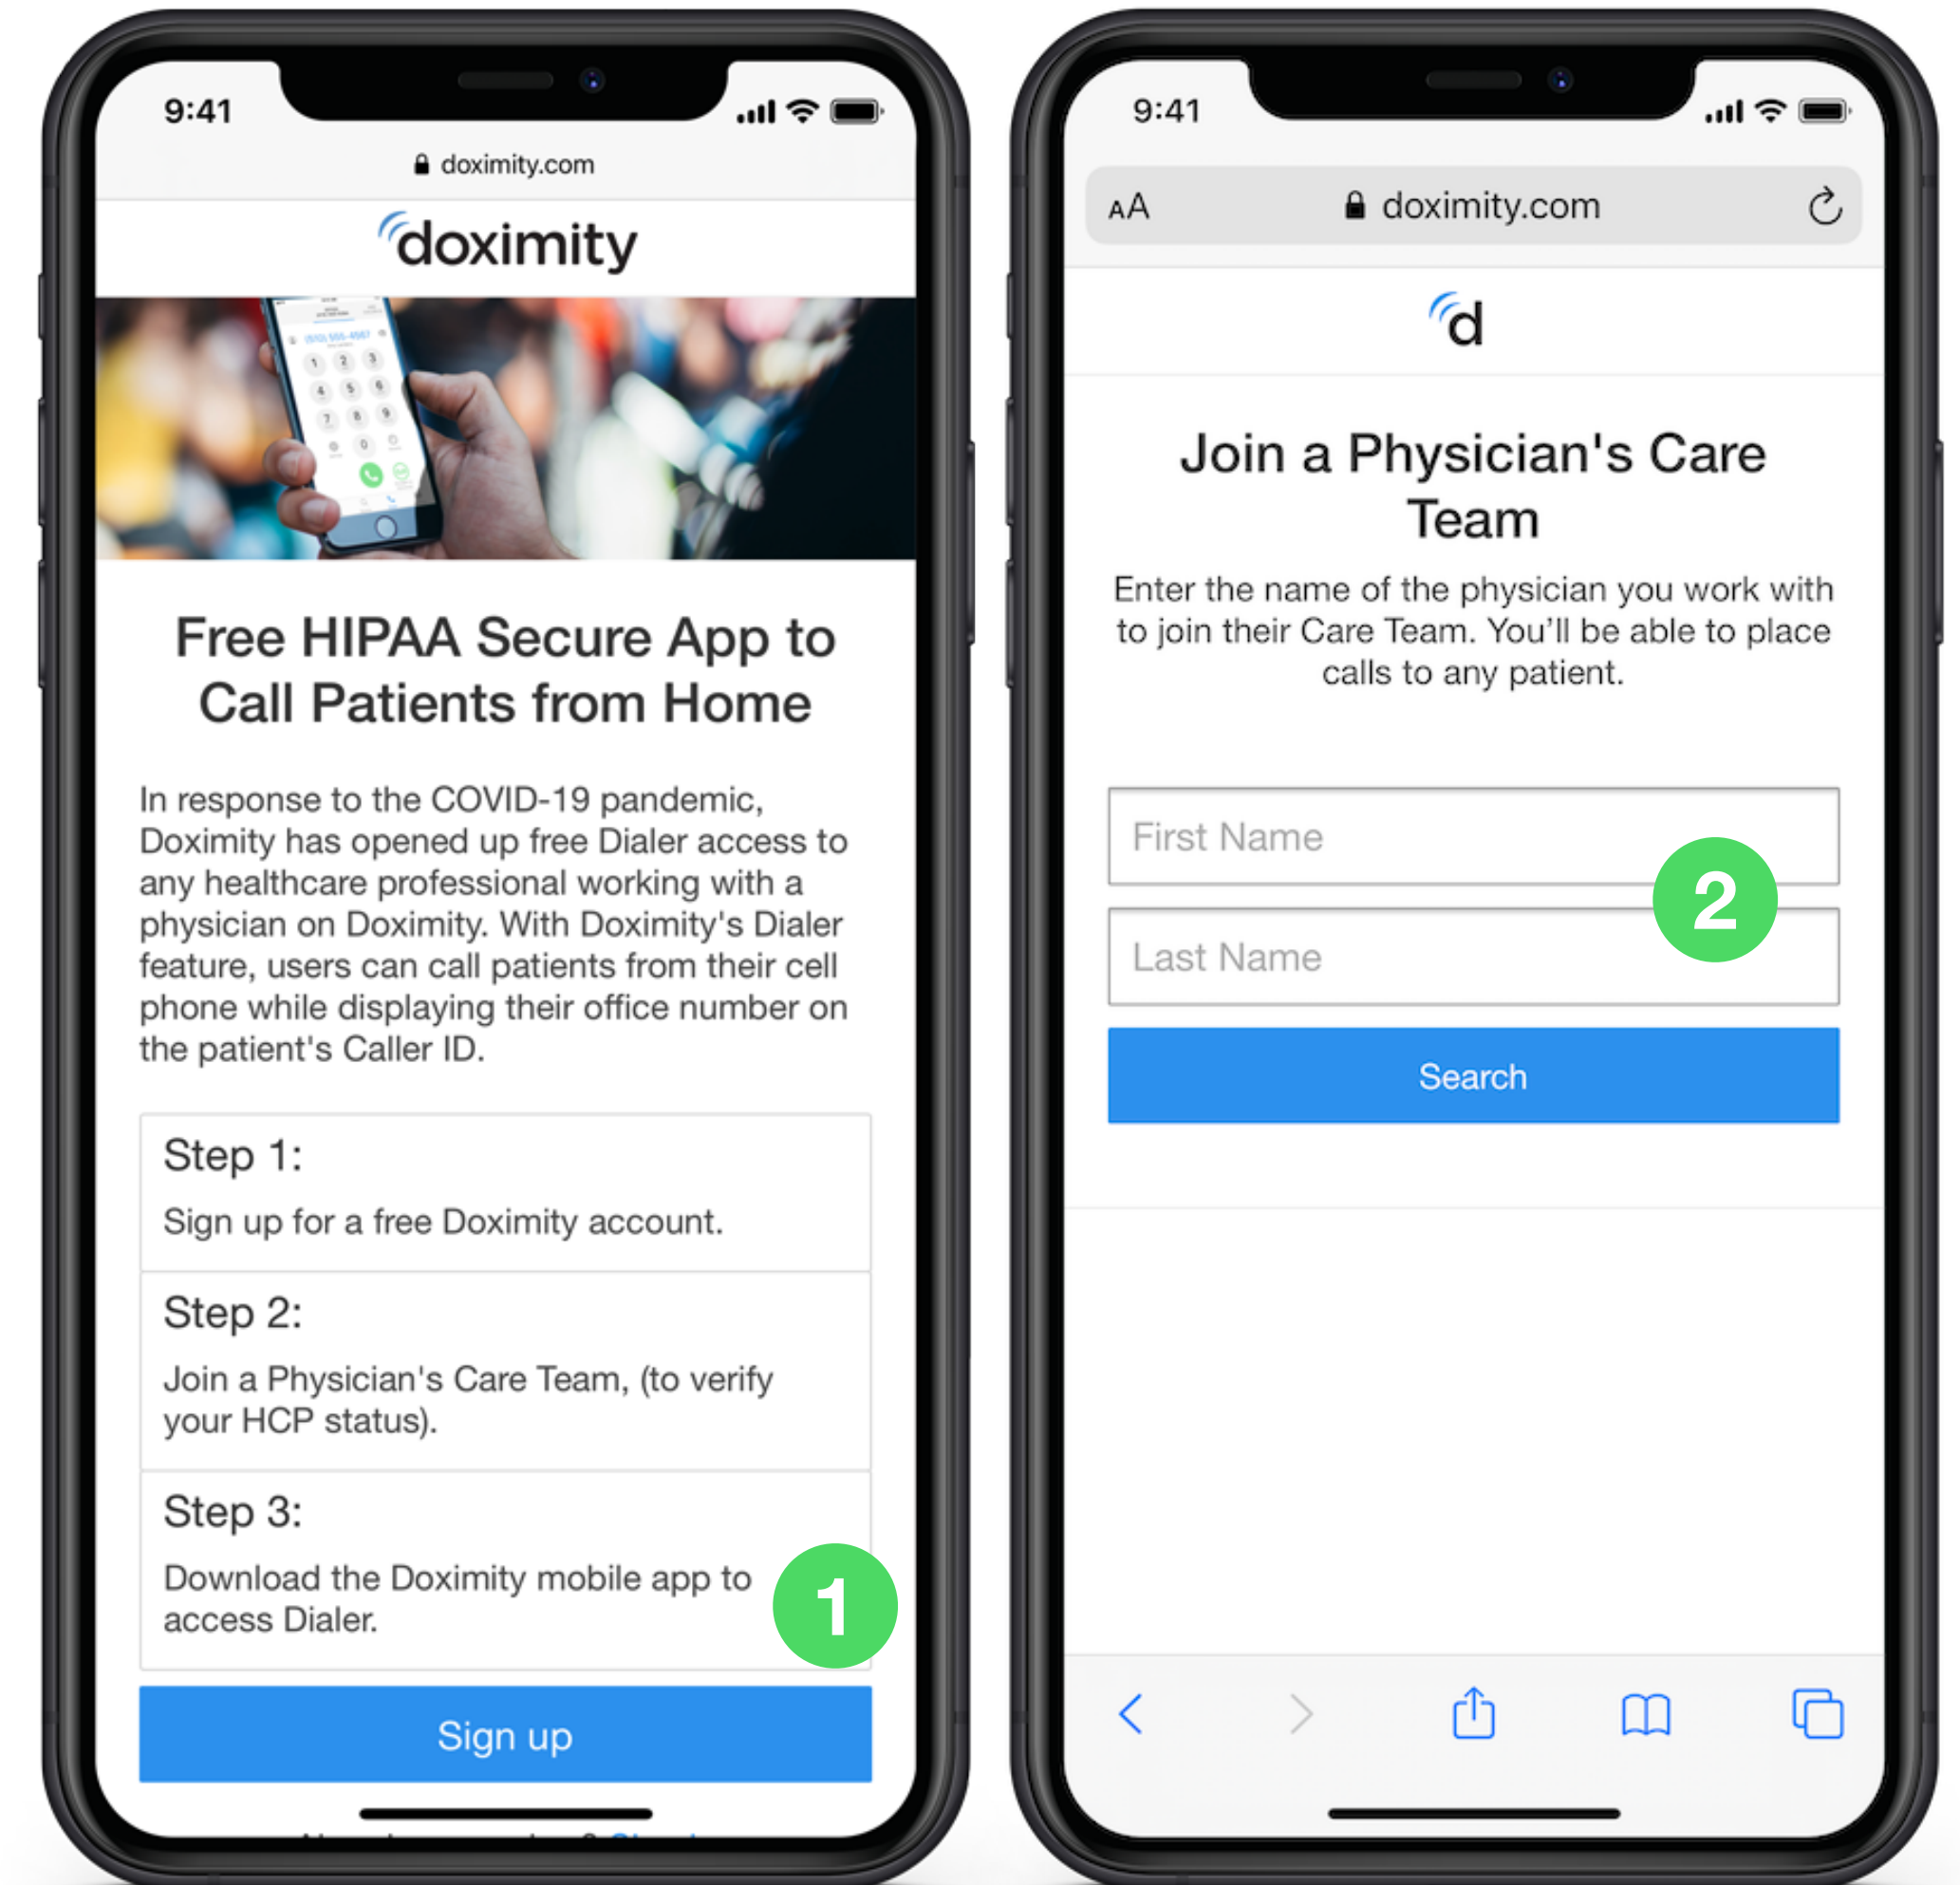

All other healthcare professionals can use Dialer by signing up for Doximity and joining their physician's Care Team. Here's how:

- 1 Go to [doximity.com/care\\_team/](https://doximity.com/care_team/). Log-in or register for your free Doximity account

**Note:** If you already have the Doximity app, uninstall and start with the aforementioned link.

**Note:** If you're not auto-verified, please allow 2 days for us to process.

- 2 Once logged in, you will land on the [Join a Care Team page](https://doximity.com/care_team/)

# Joining a Care Team

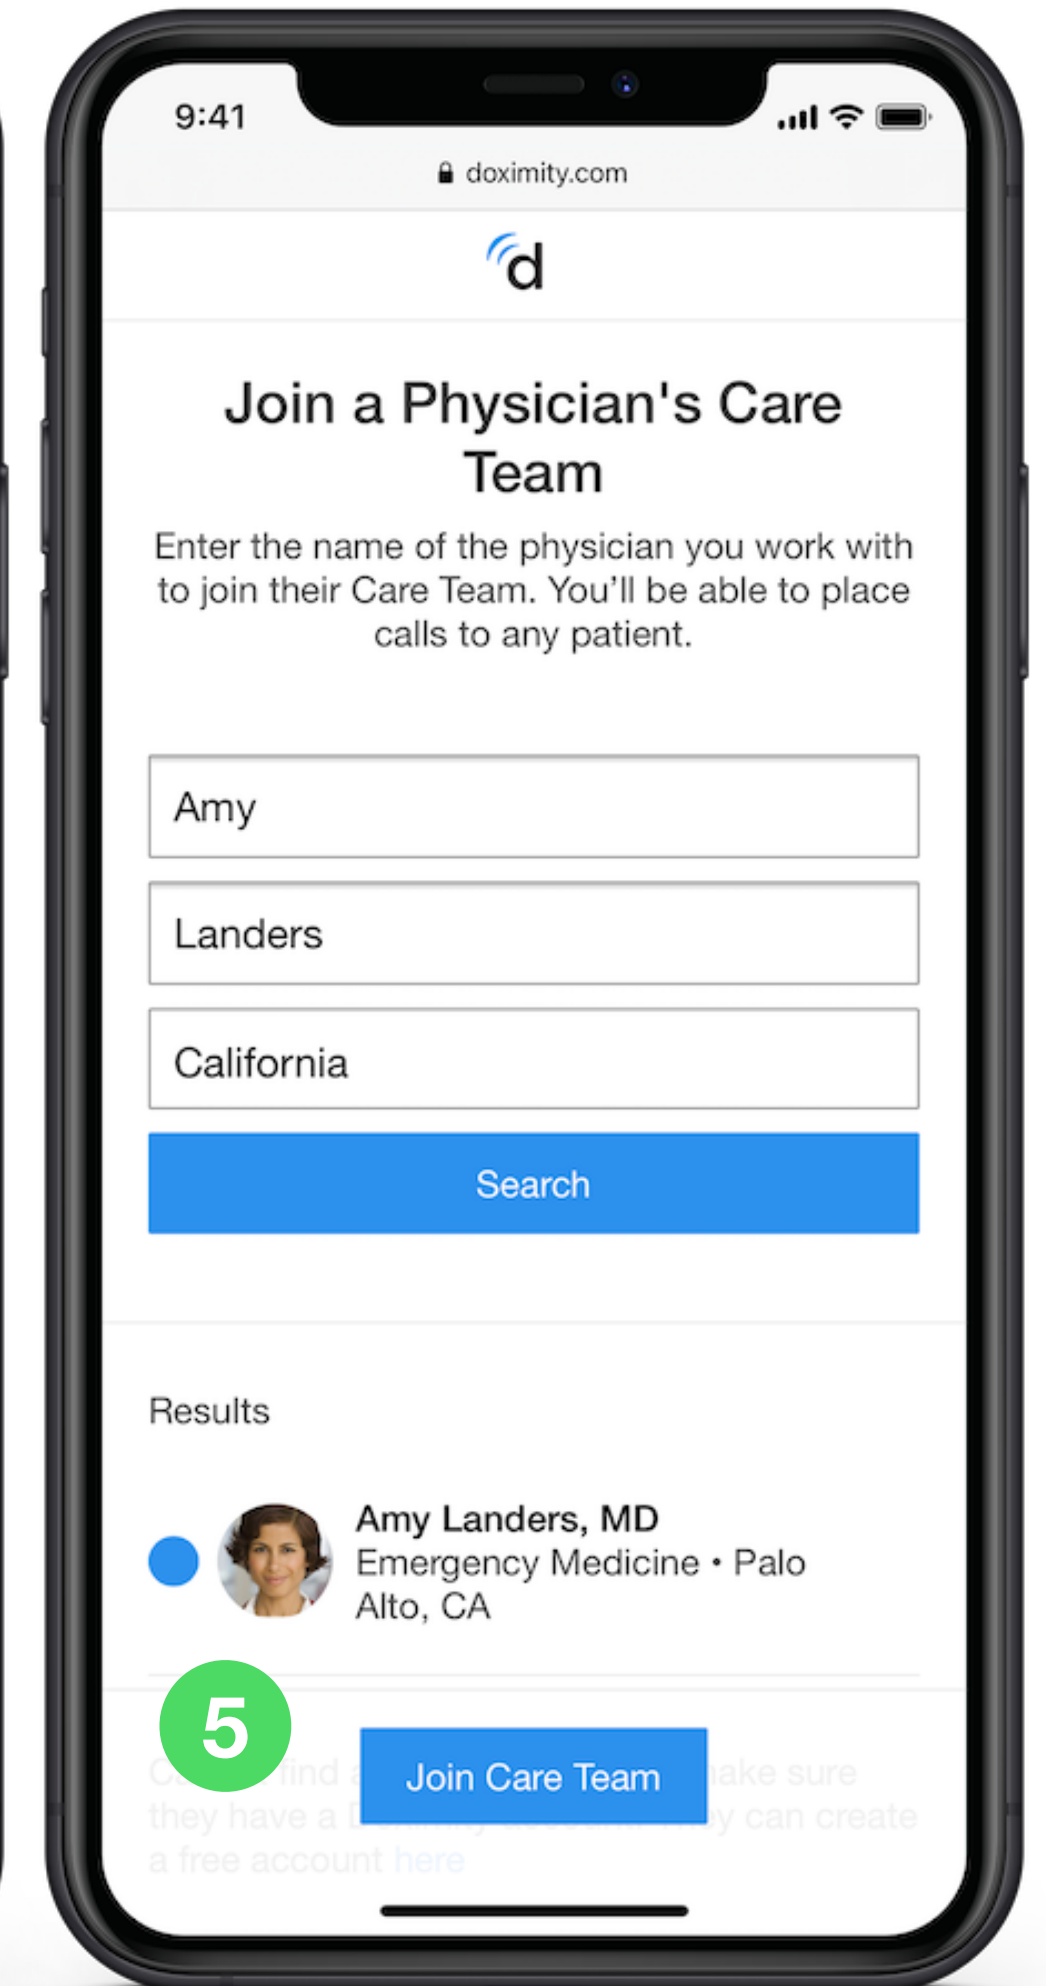

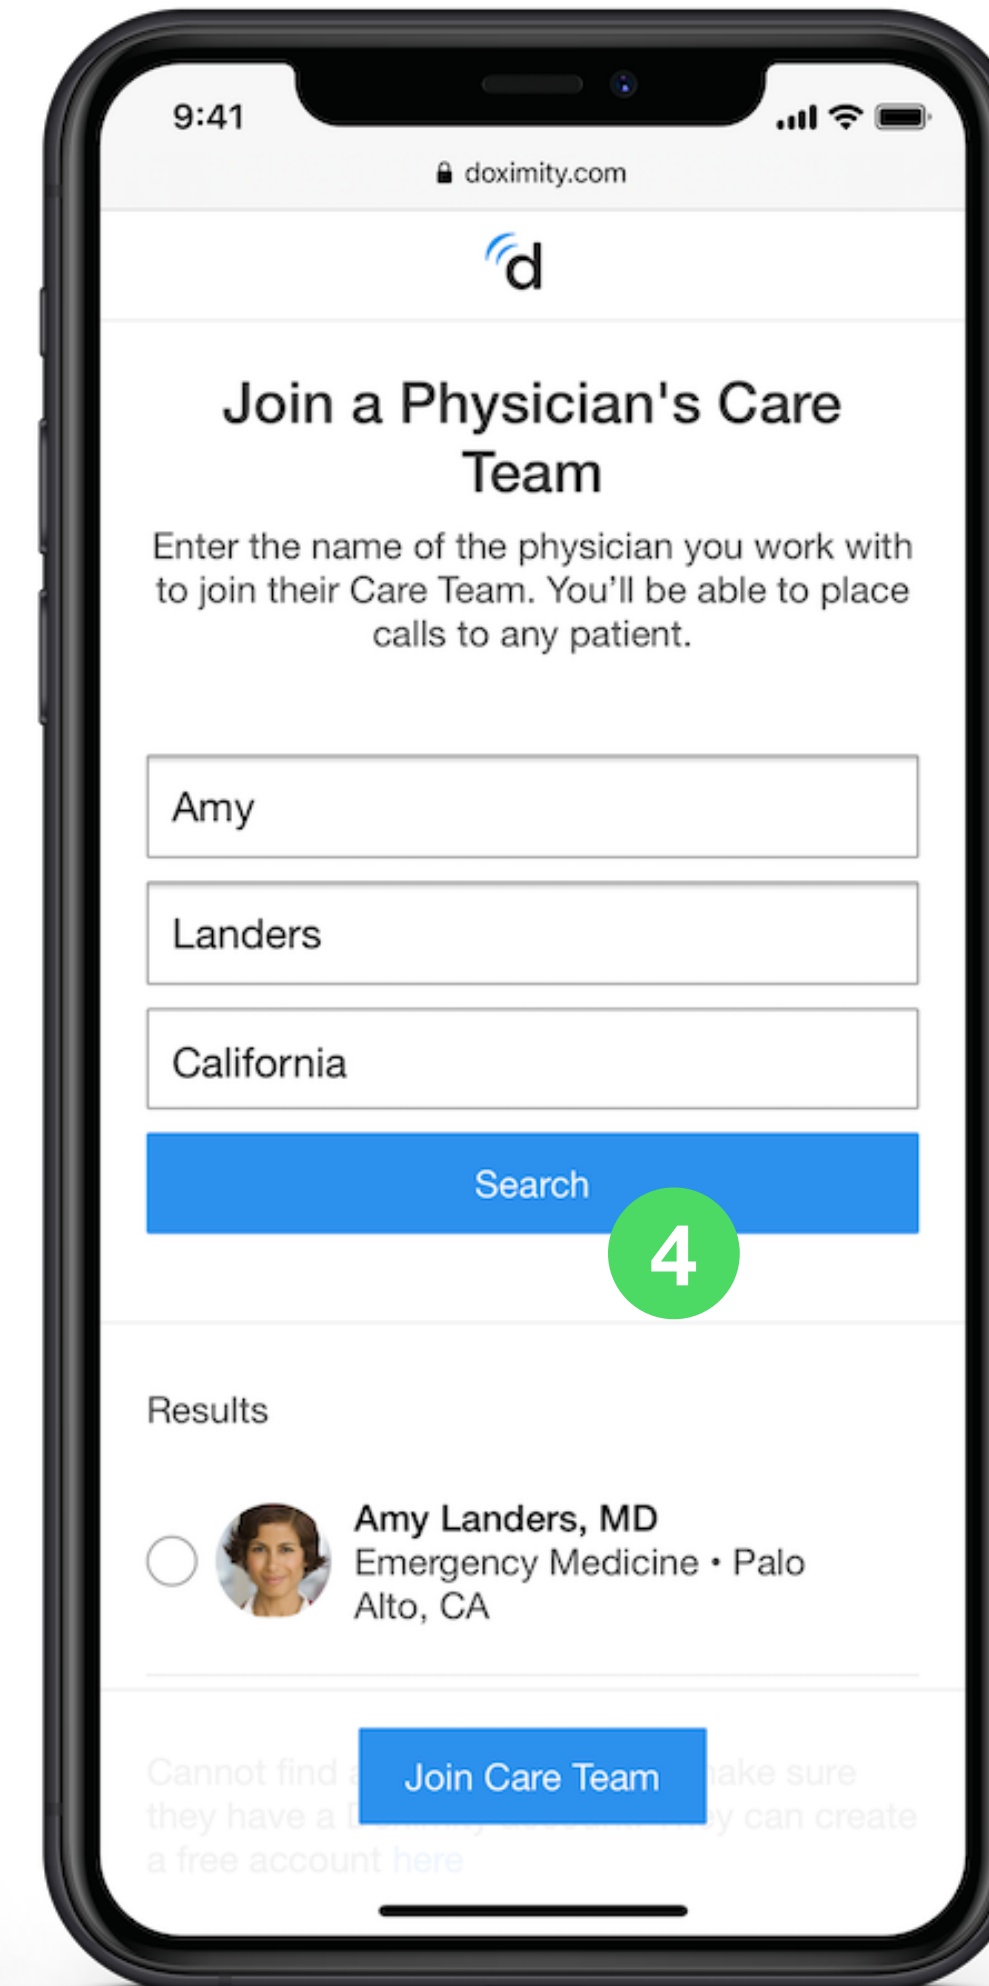

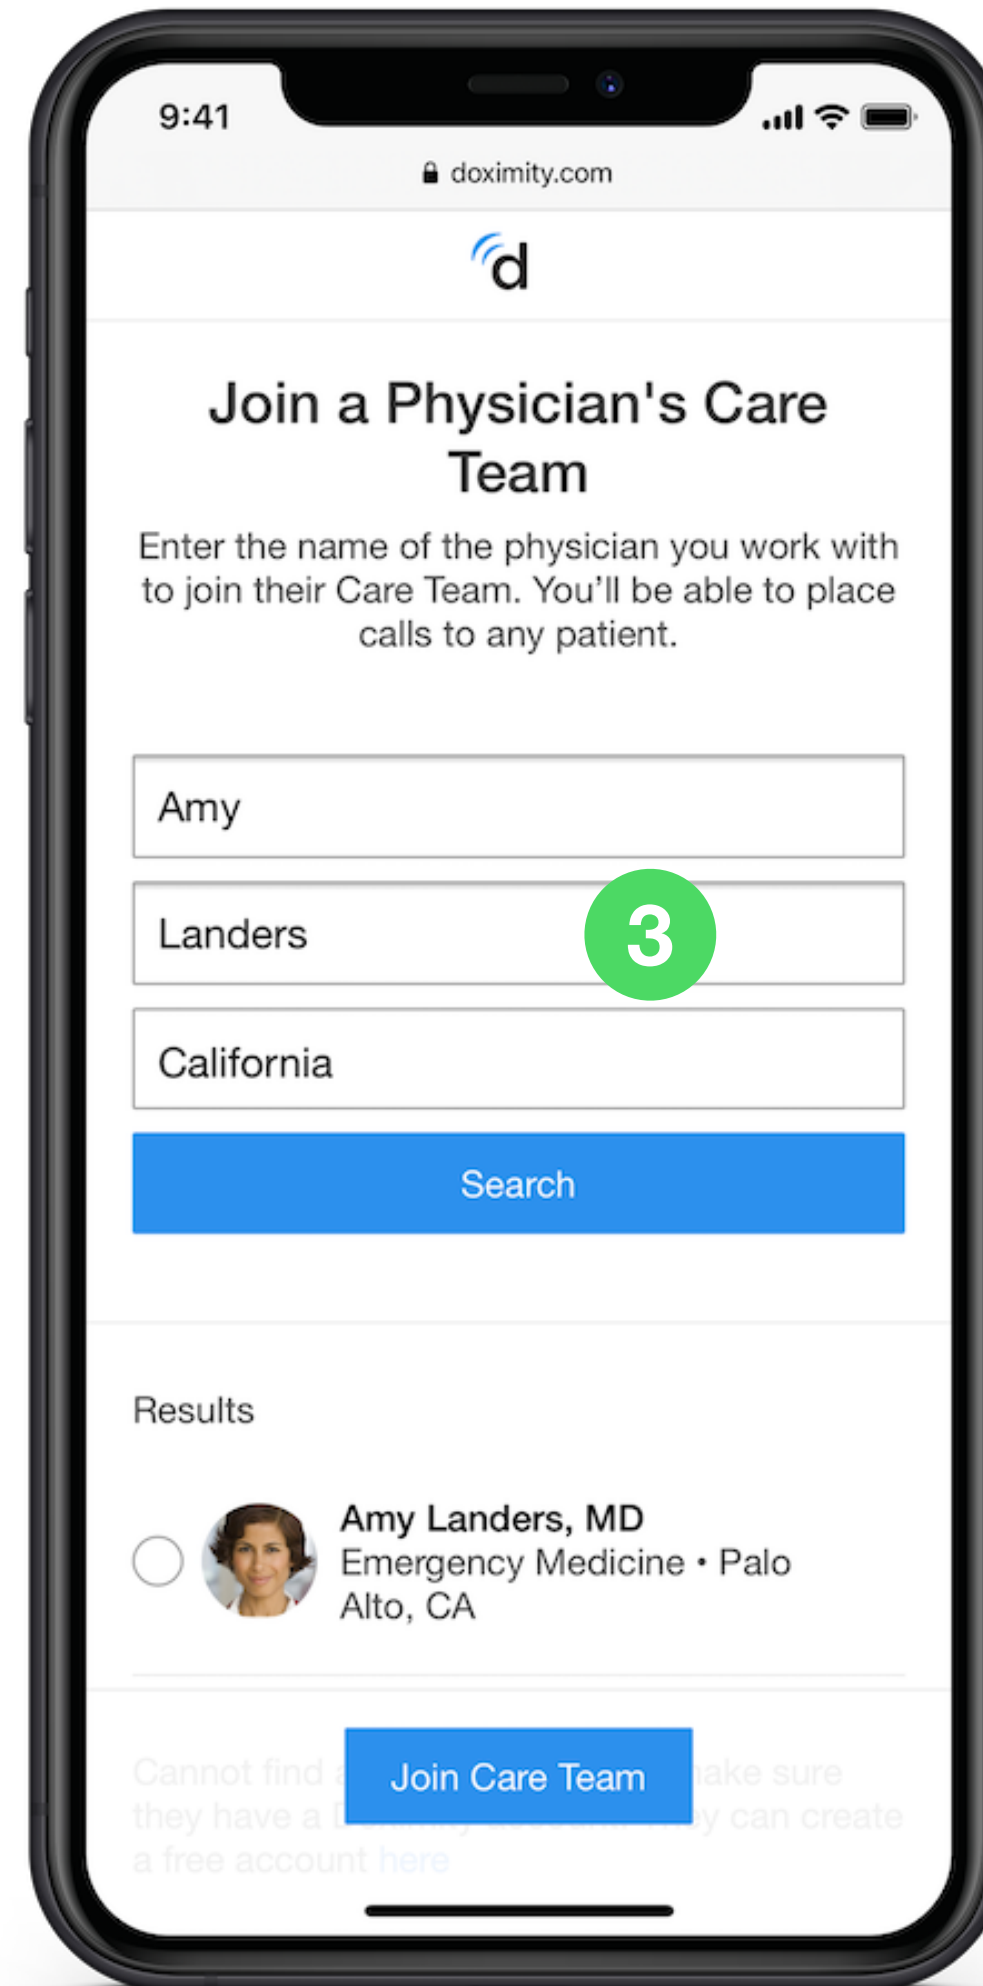

- 3 Type in the **first** and **last** name of the physician whose Care Team you'd like to join

**Note:** Choose the physician you work with the most. You can't search for NPs/PAs/PharmD

- 4 Tap "Search"

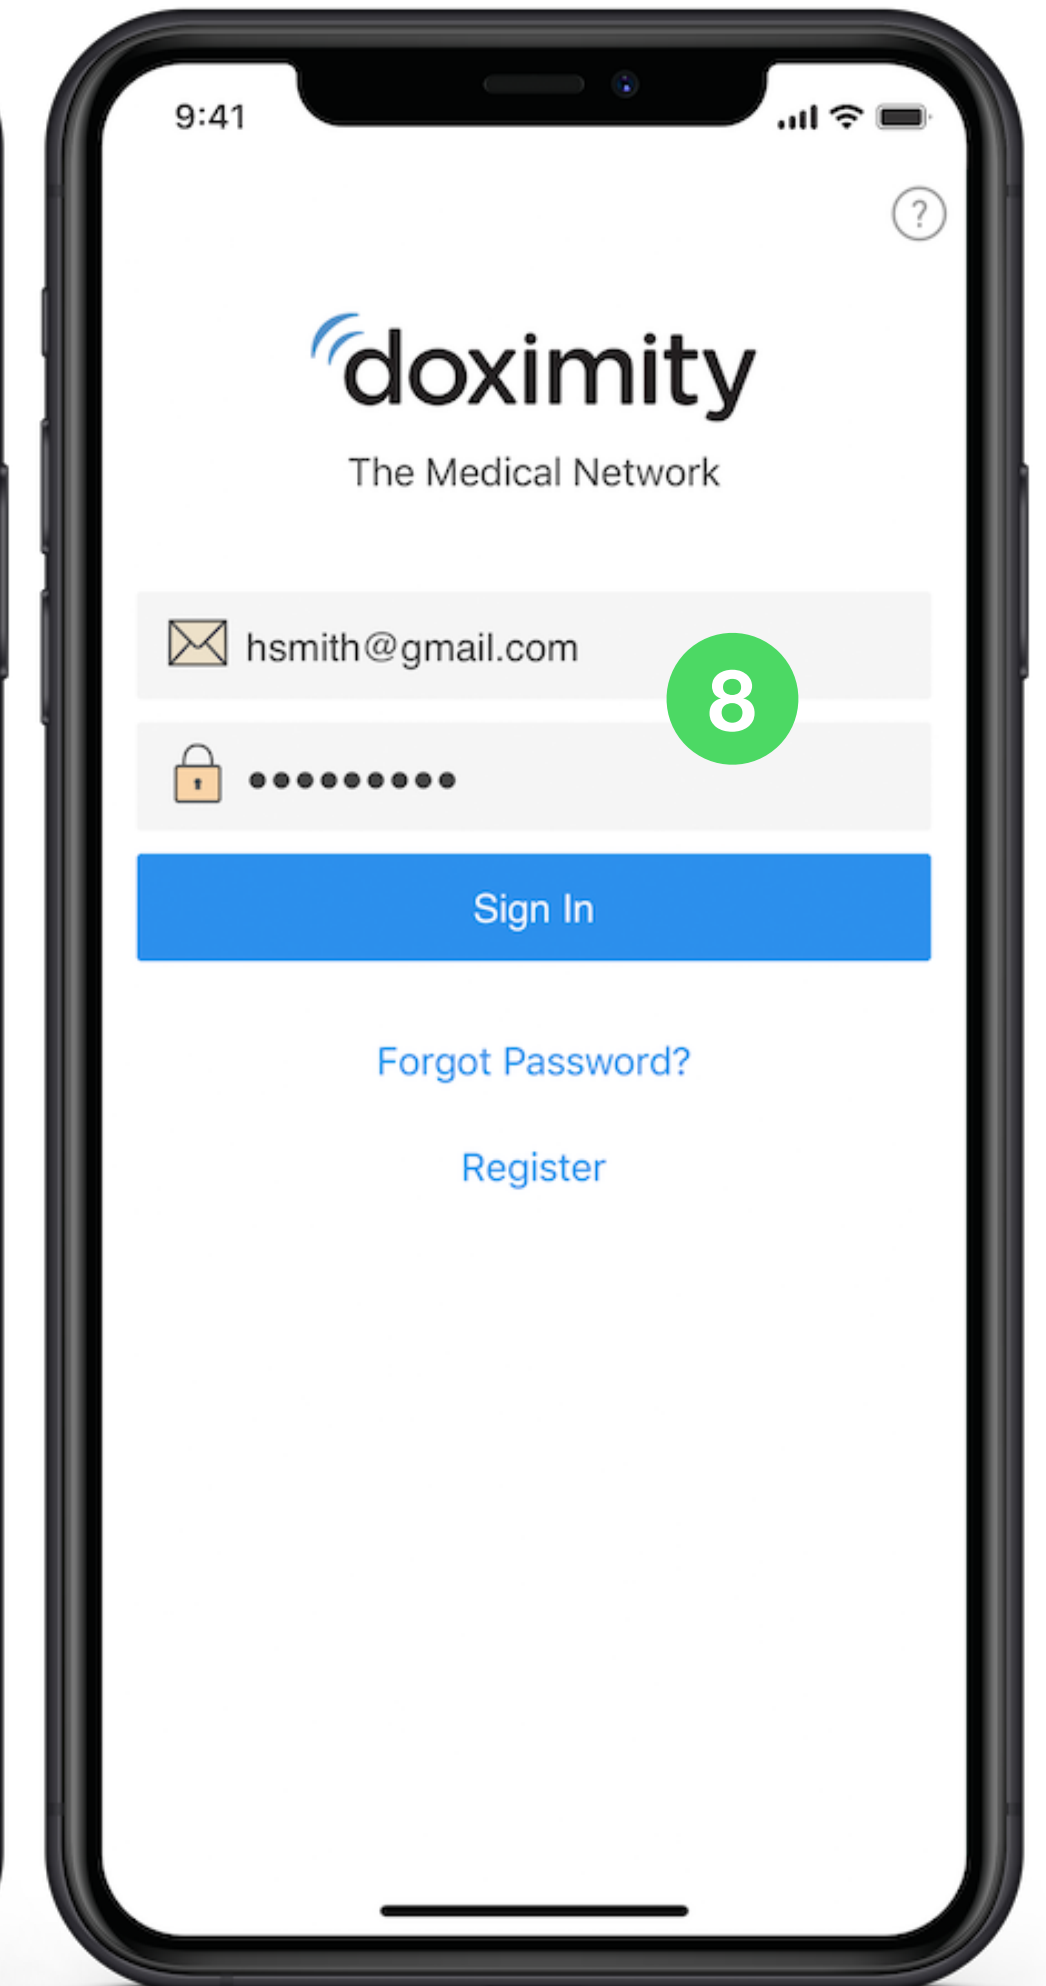

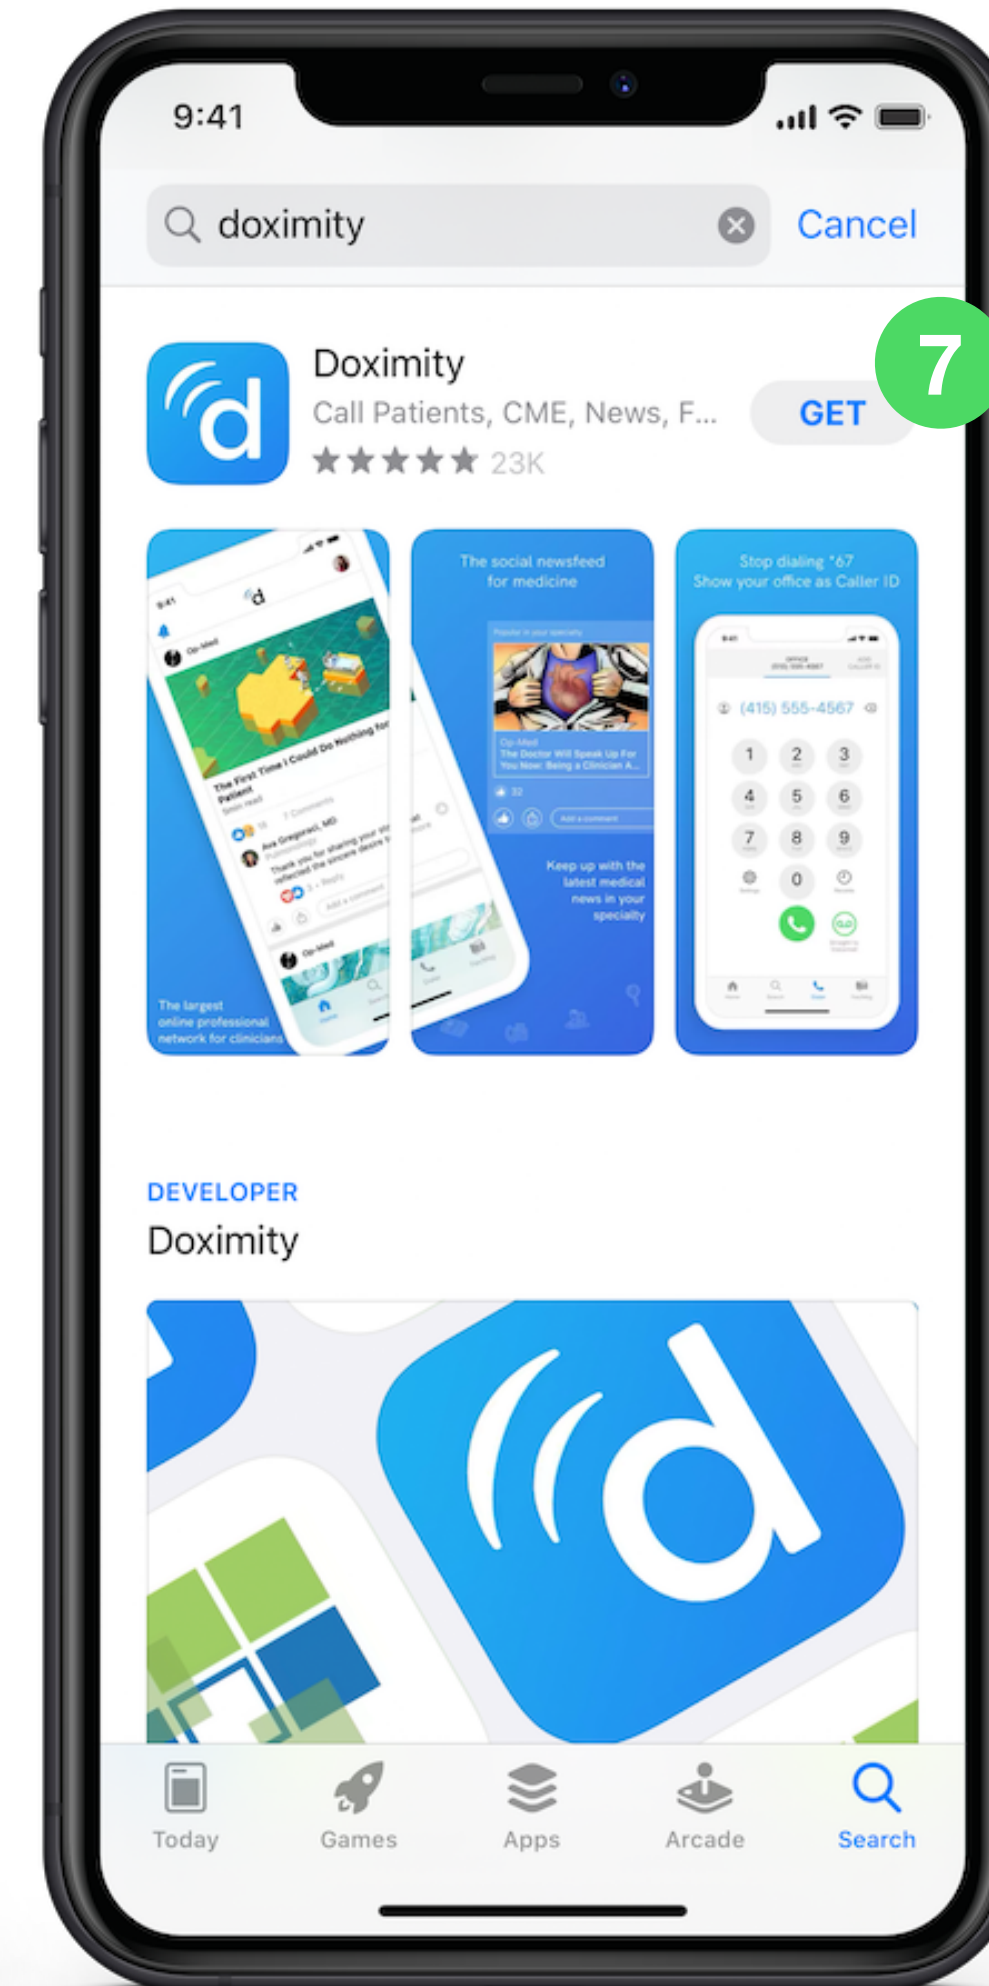

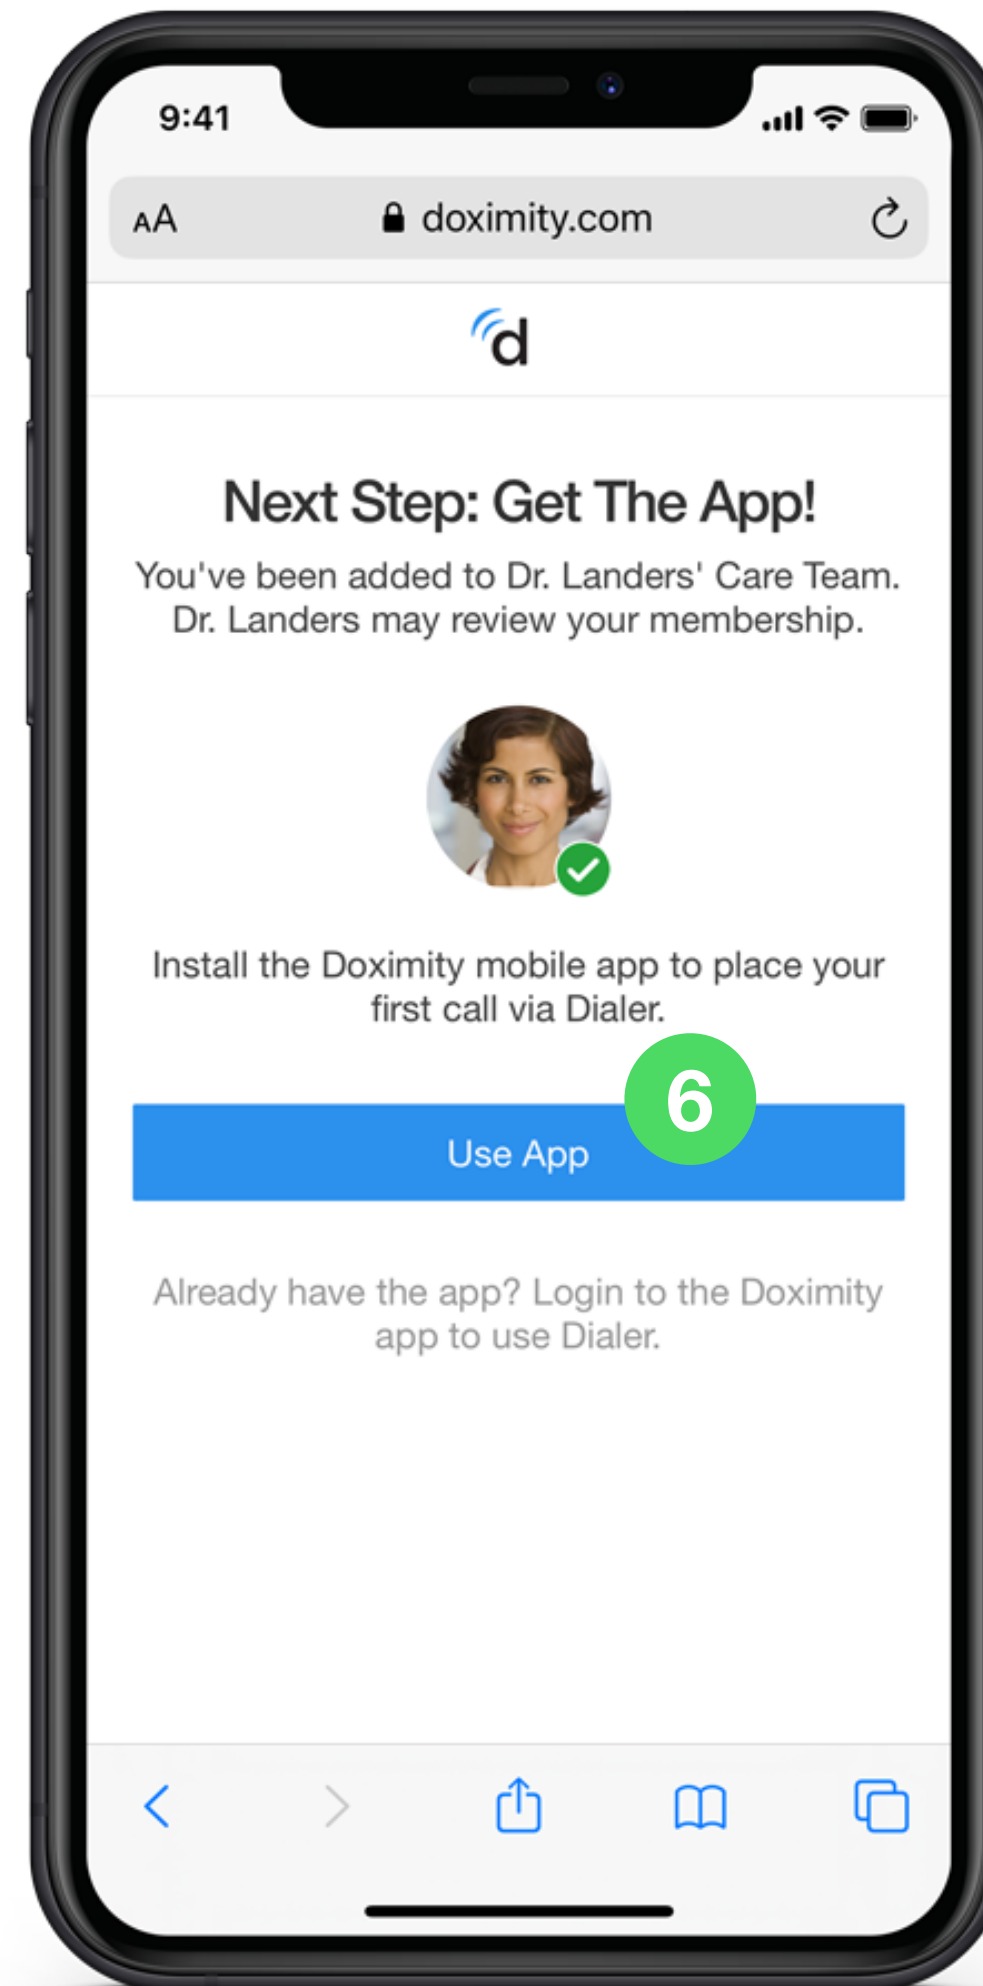

- 5 Select the physician and click "Join Care Team"

**Note:** You can only see U.S. practicing MDs/DOs who are registered for Doximity

# Joining a Care Team

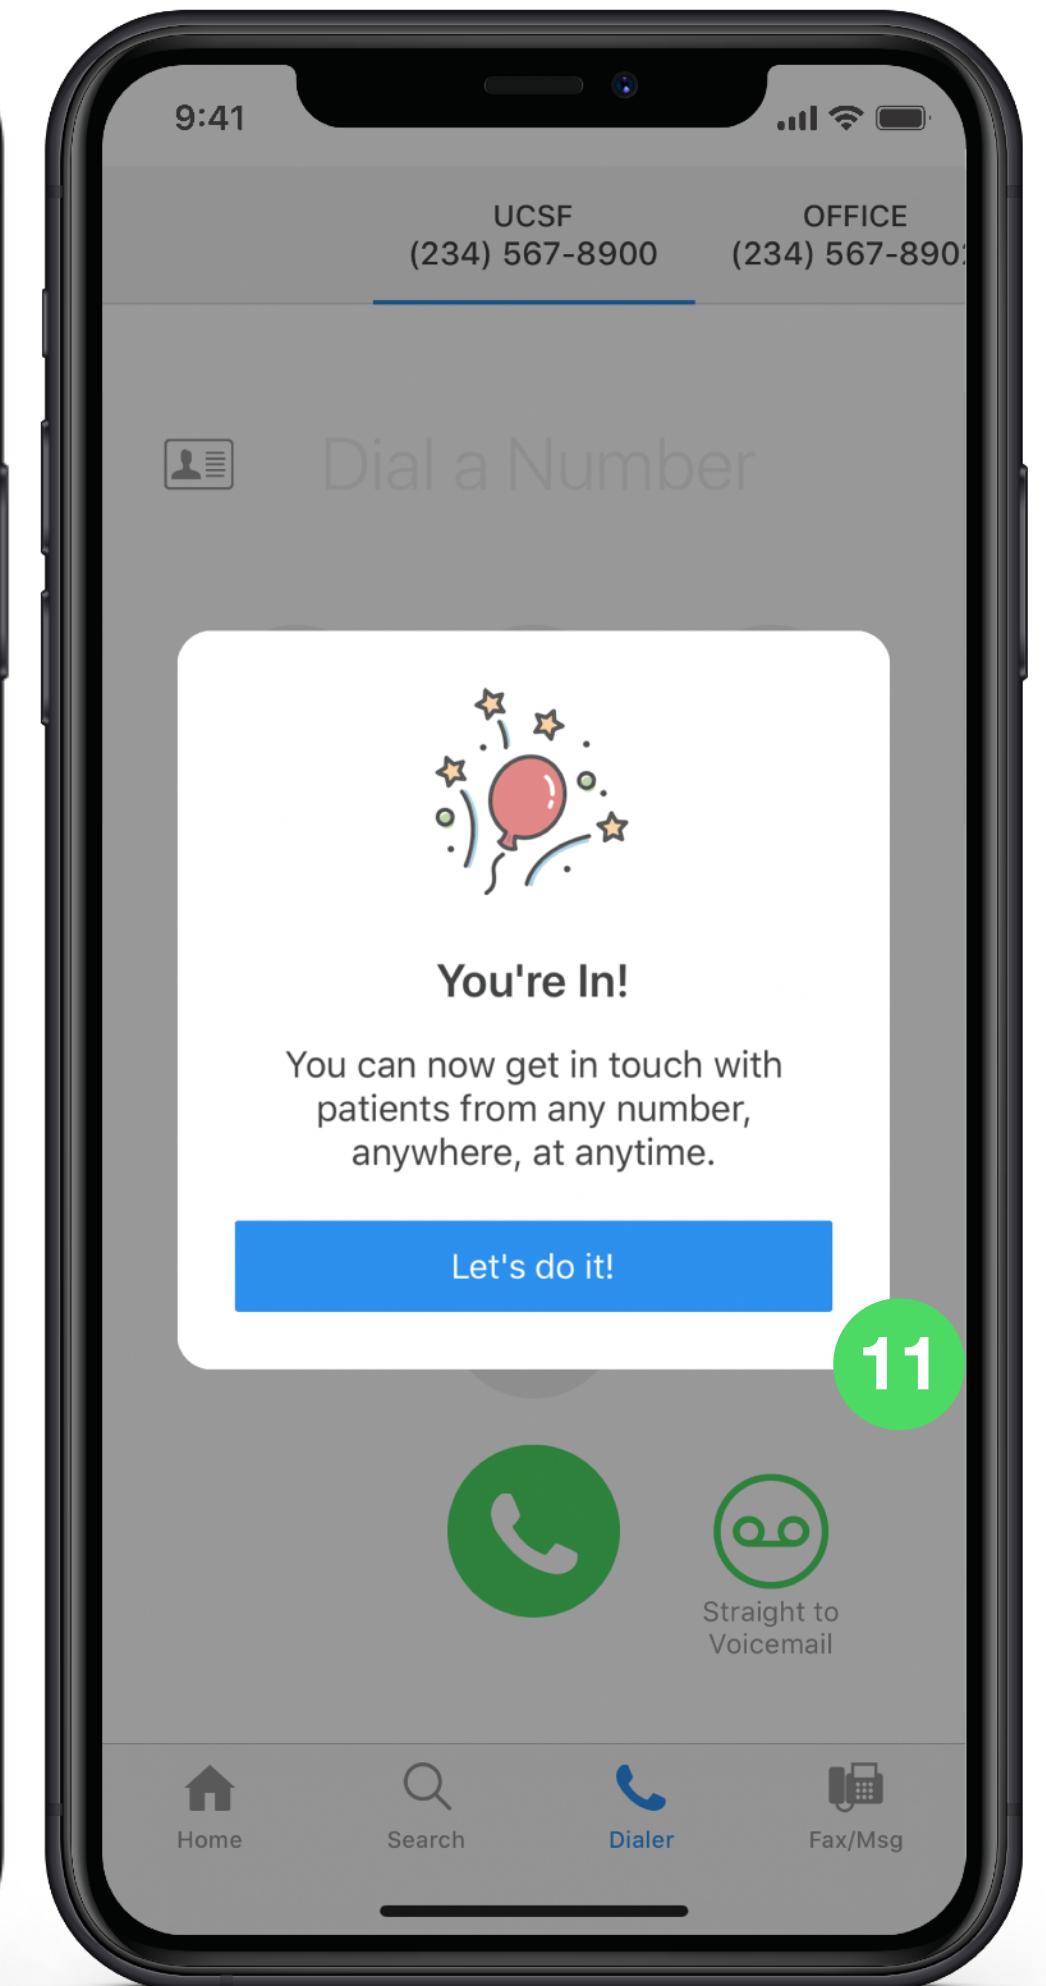

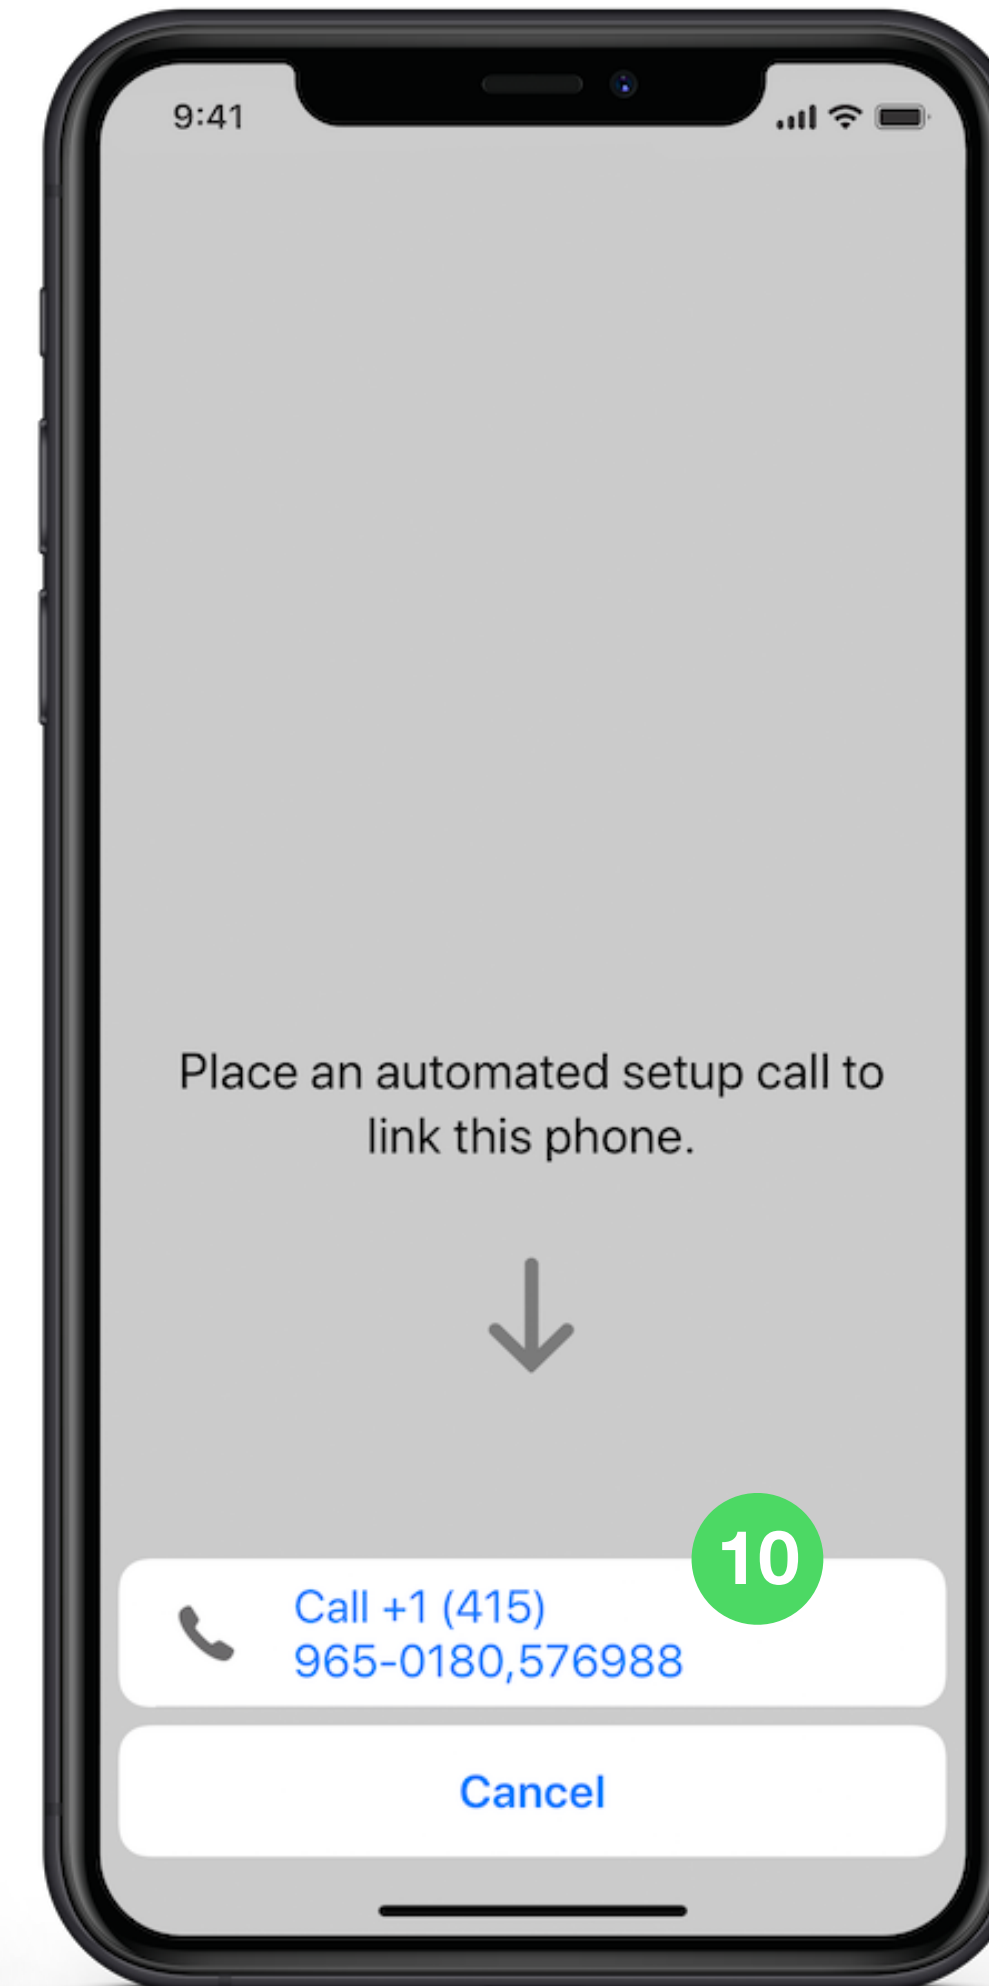

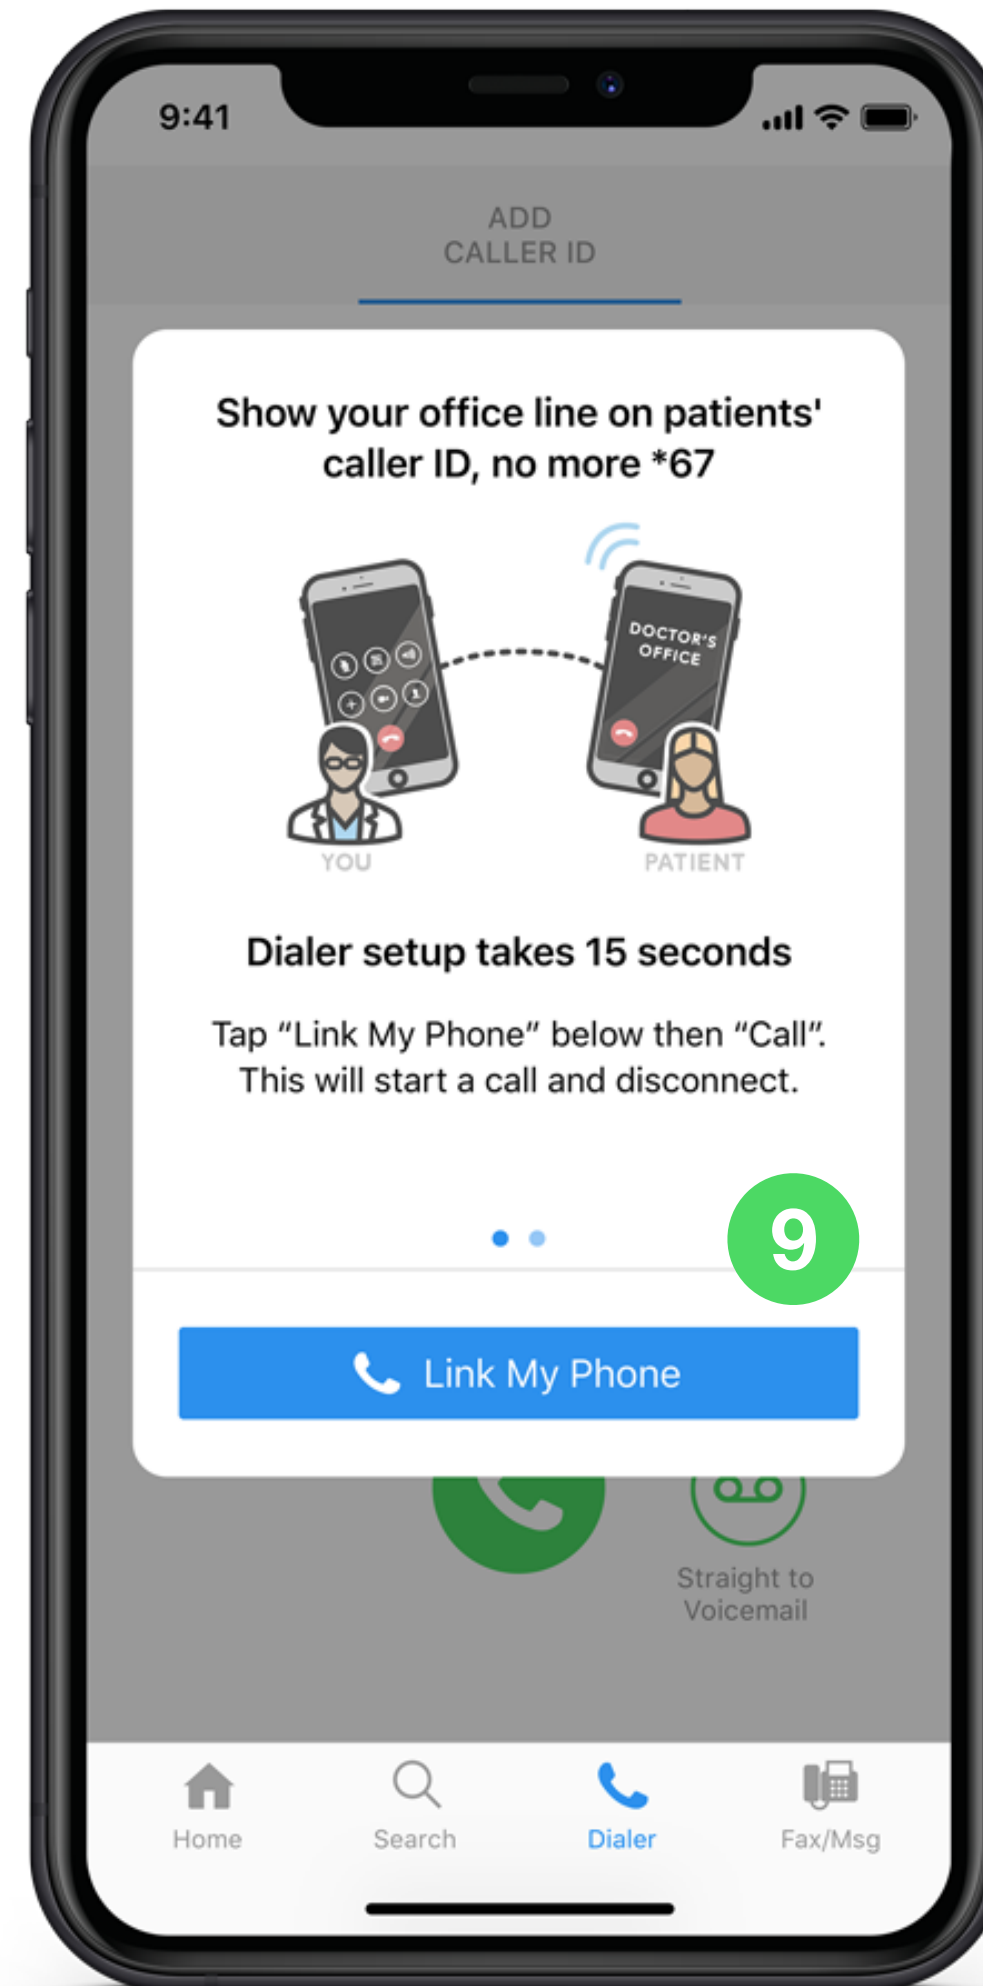

- 6 Once you've joined a team, you'll see a confirmation message
- 7 Then, you'll be prompted to download the Doximity app for free
  -  [Doximity - iPhone](#)
  -  [Doximity - Android](#)
- 8 Open the Doximity app and enter your email and password to sign in

# Setting Up Dialer in the Doximity App

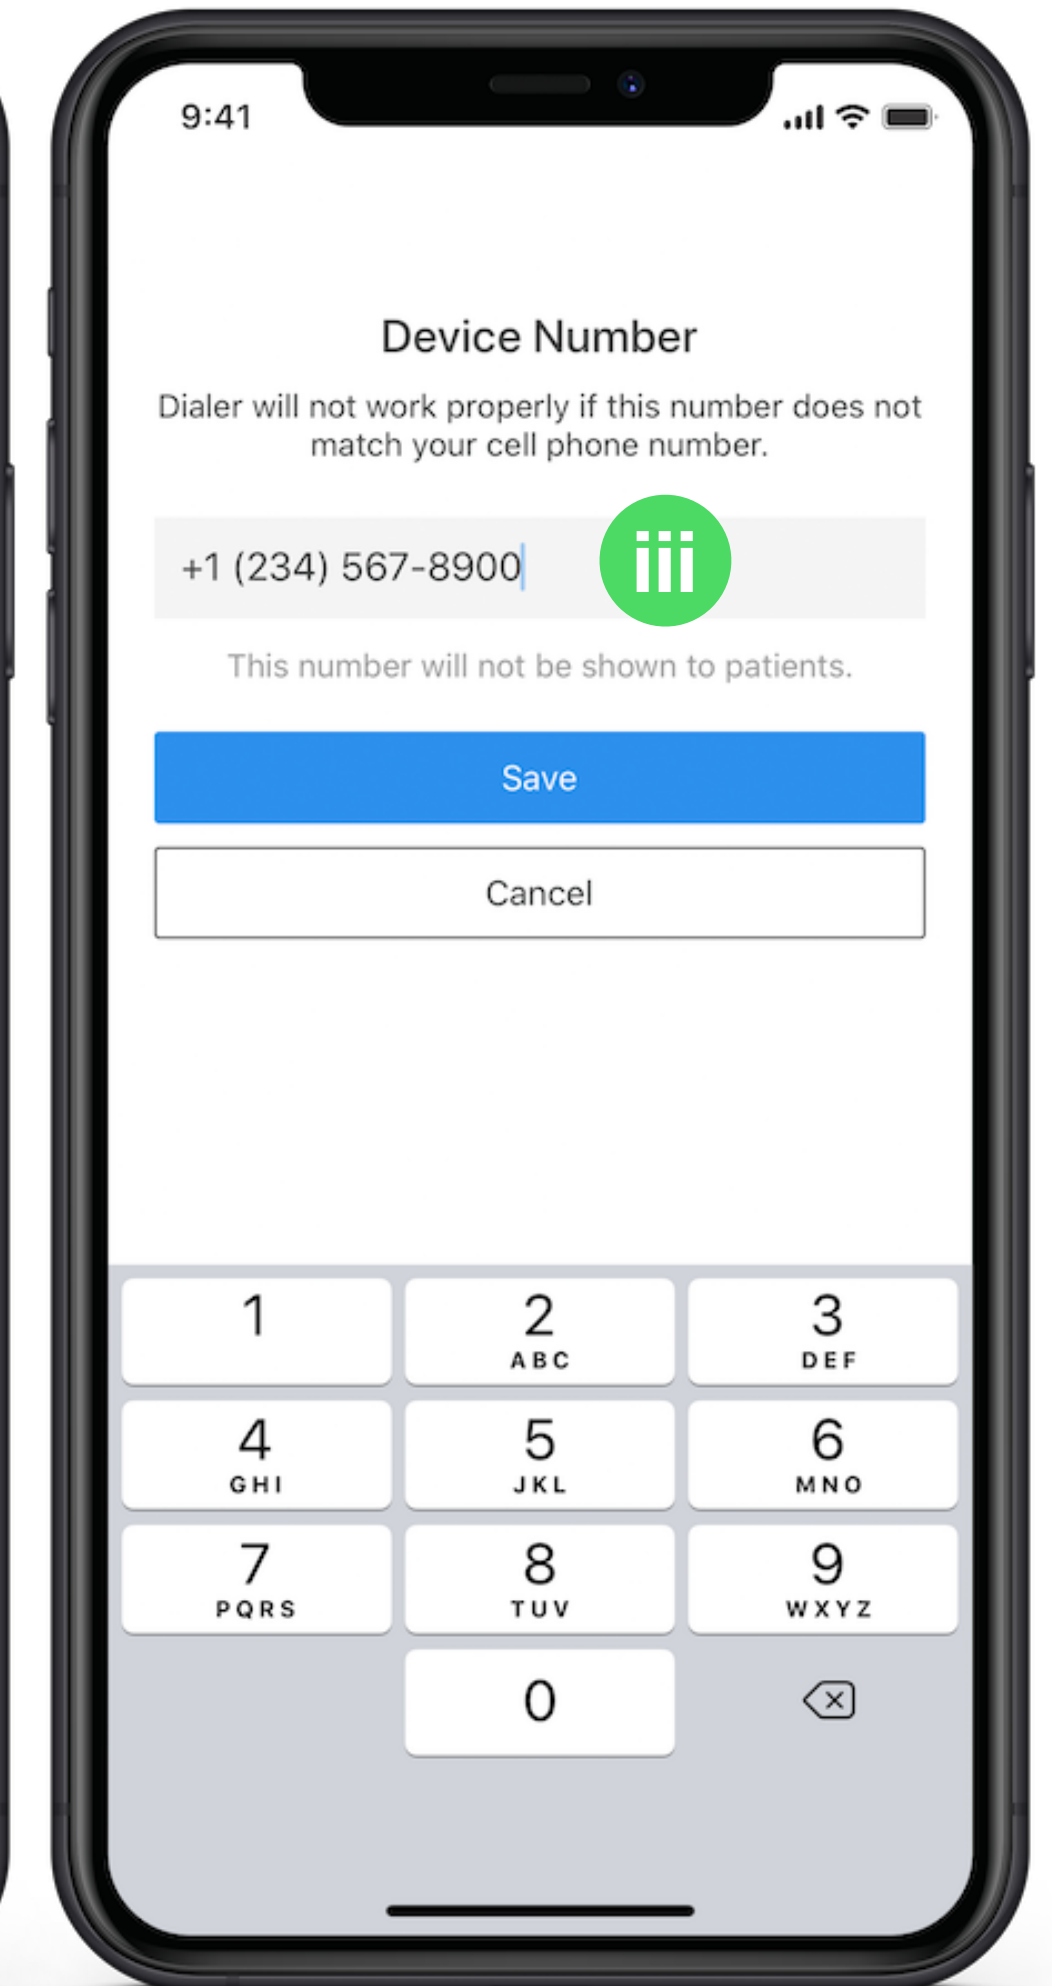

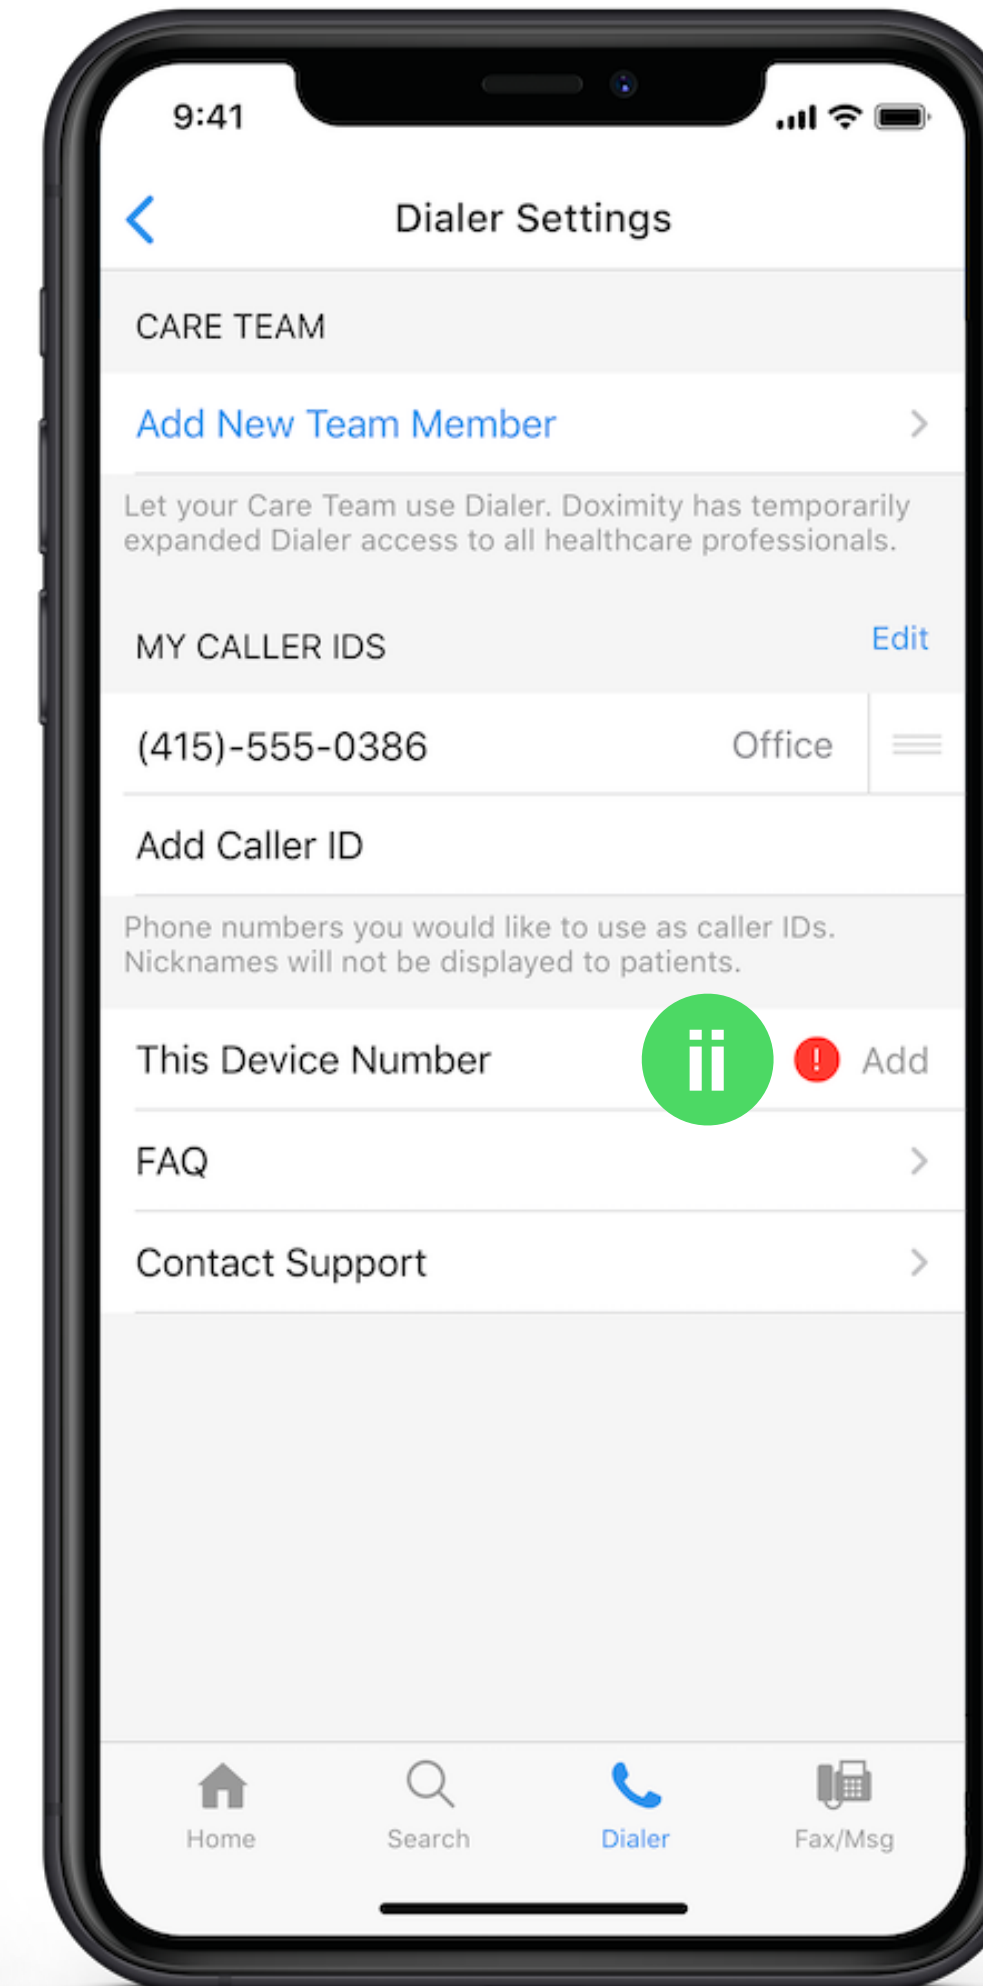

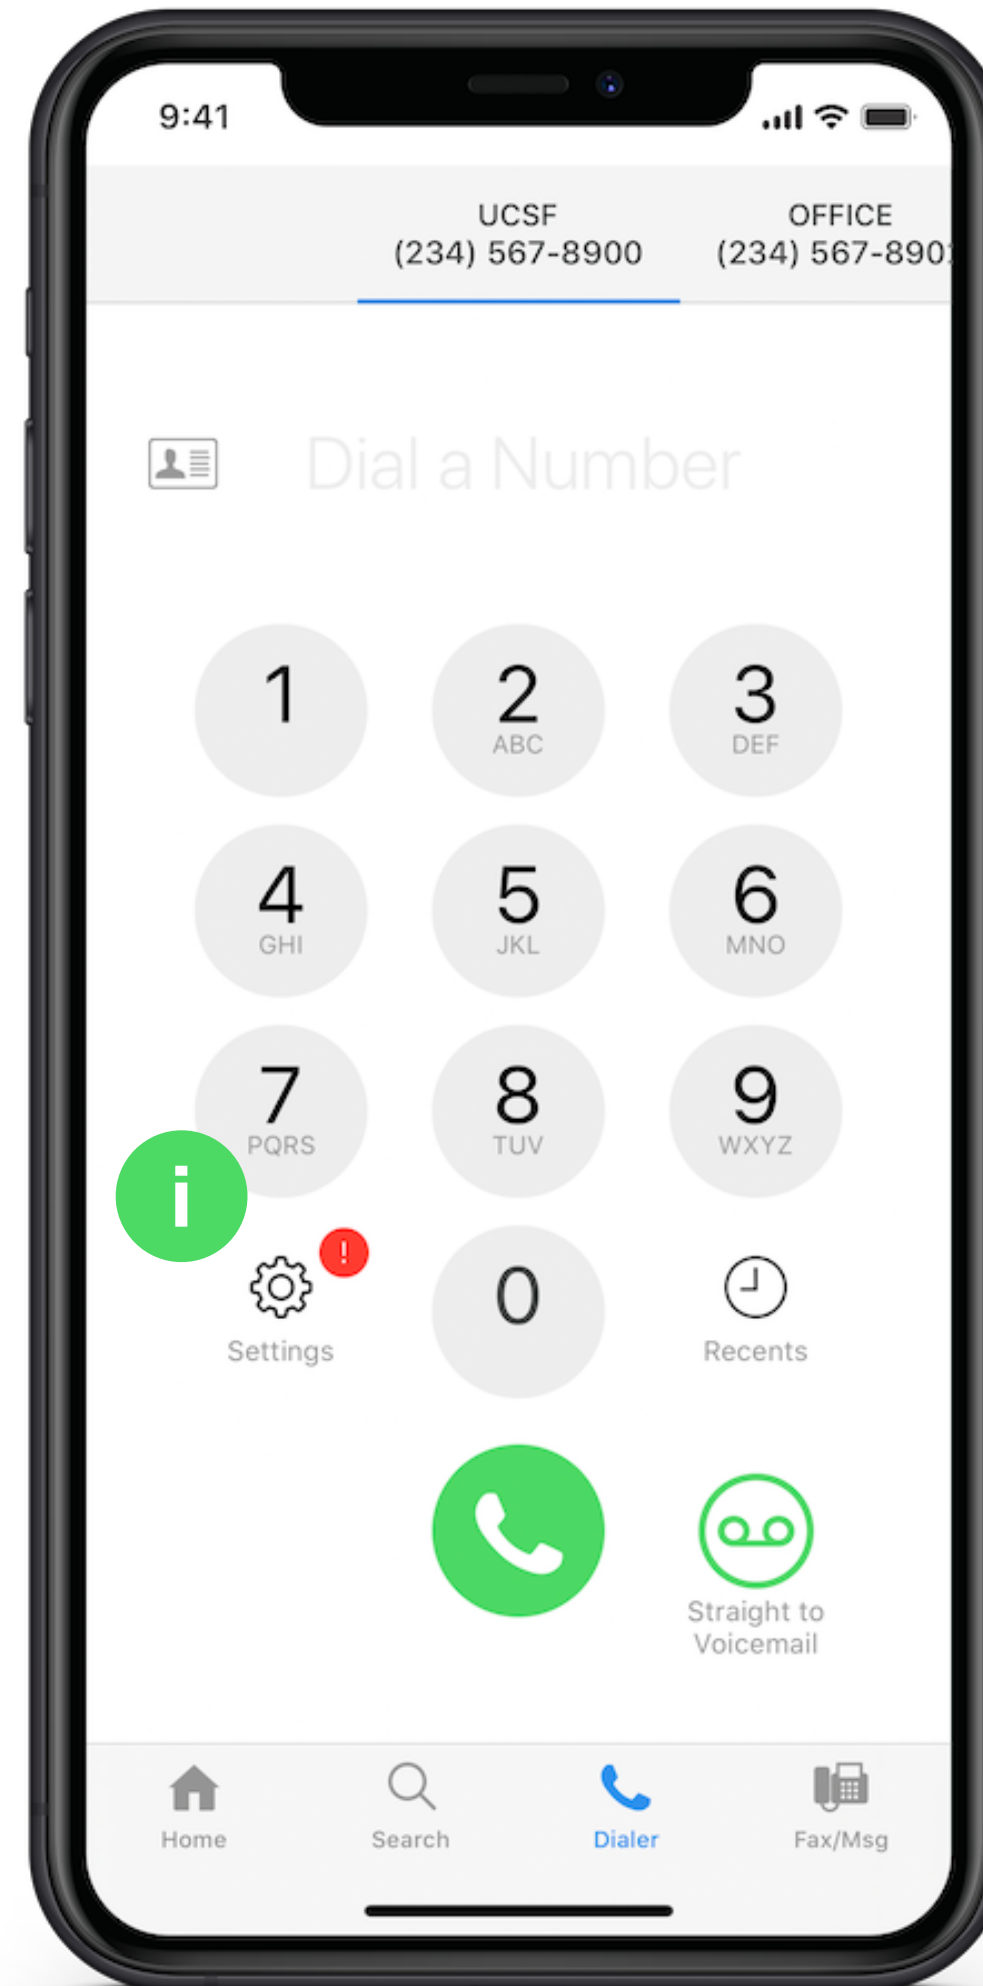

- 9 You'll be prompted to set up Dialer. Tap on "Link My Phone"
- 10 Tap the "Call" button to set up your device  
*This will set up your device by calling a phone number*  
**Note:** You'll hear an automated recording letting you know that set up is complete.
- 11 You'll see a confirmation message. Tap "Let's do it!" to start using Dialer

# Couldn't Set Up Dialer? Activate Manually

- i Tap the red notification badge in "Settings"
- ii Tap "This Device Number"
- iii Enter your cell phone number to finish setting up Dialer

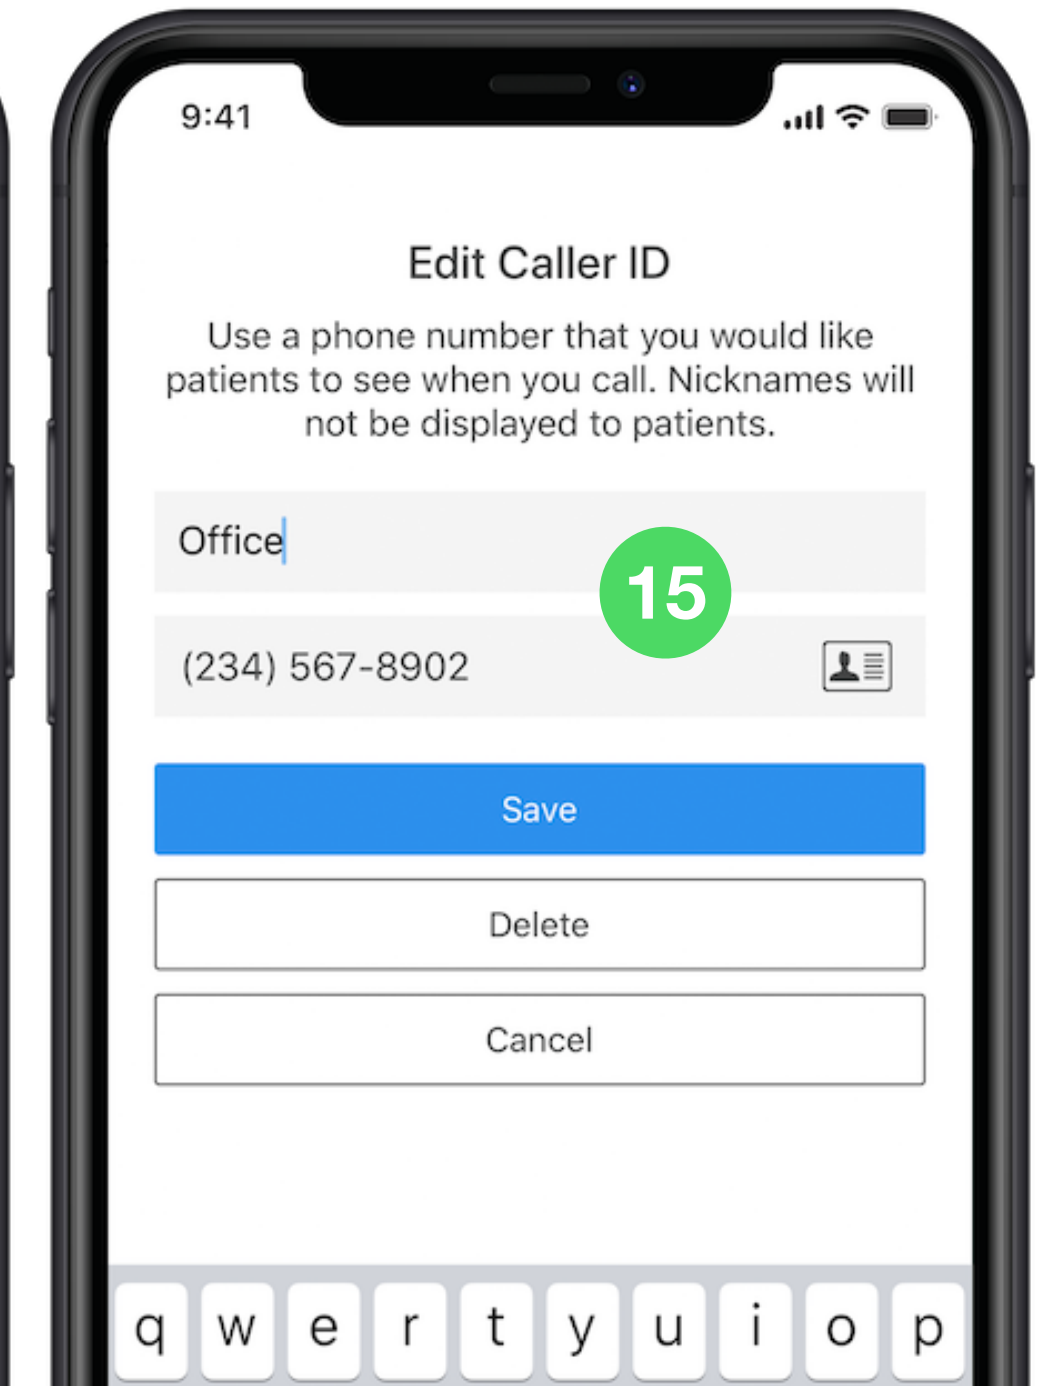

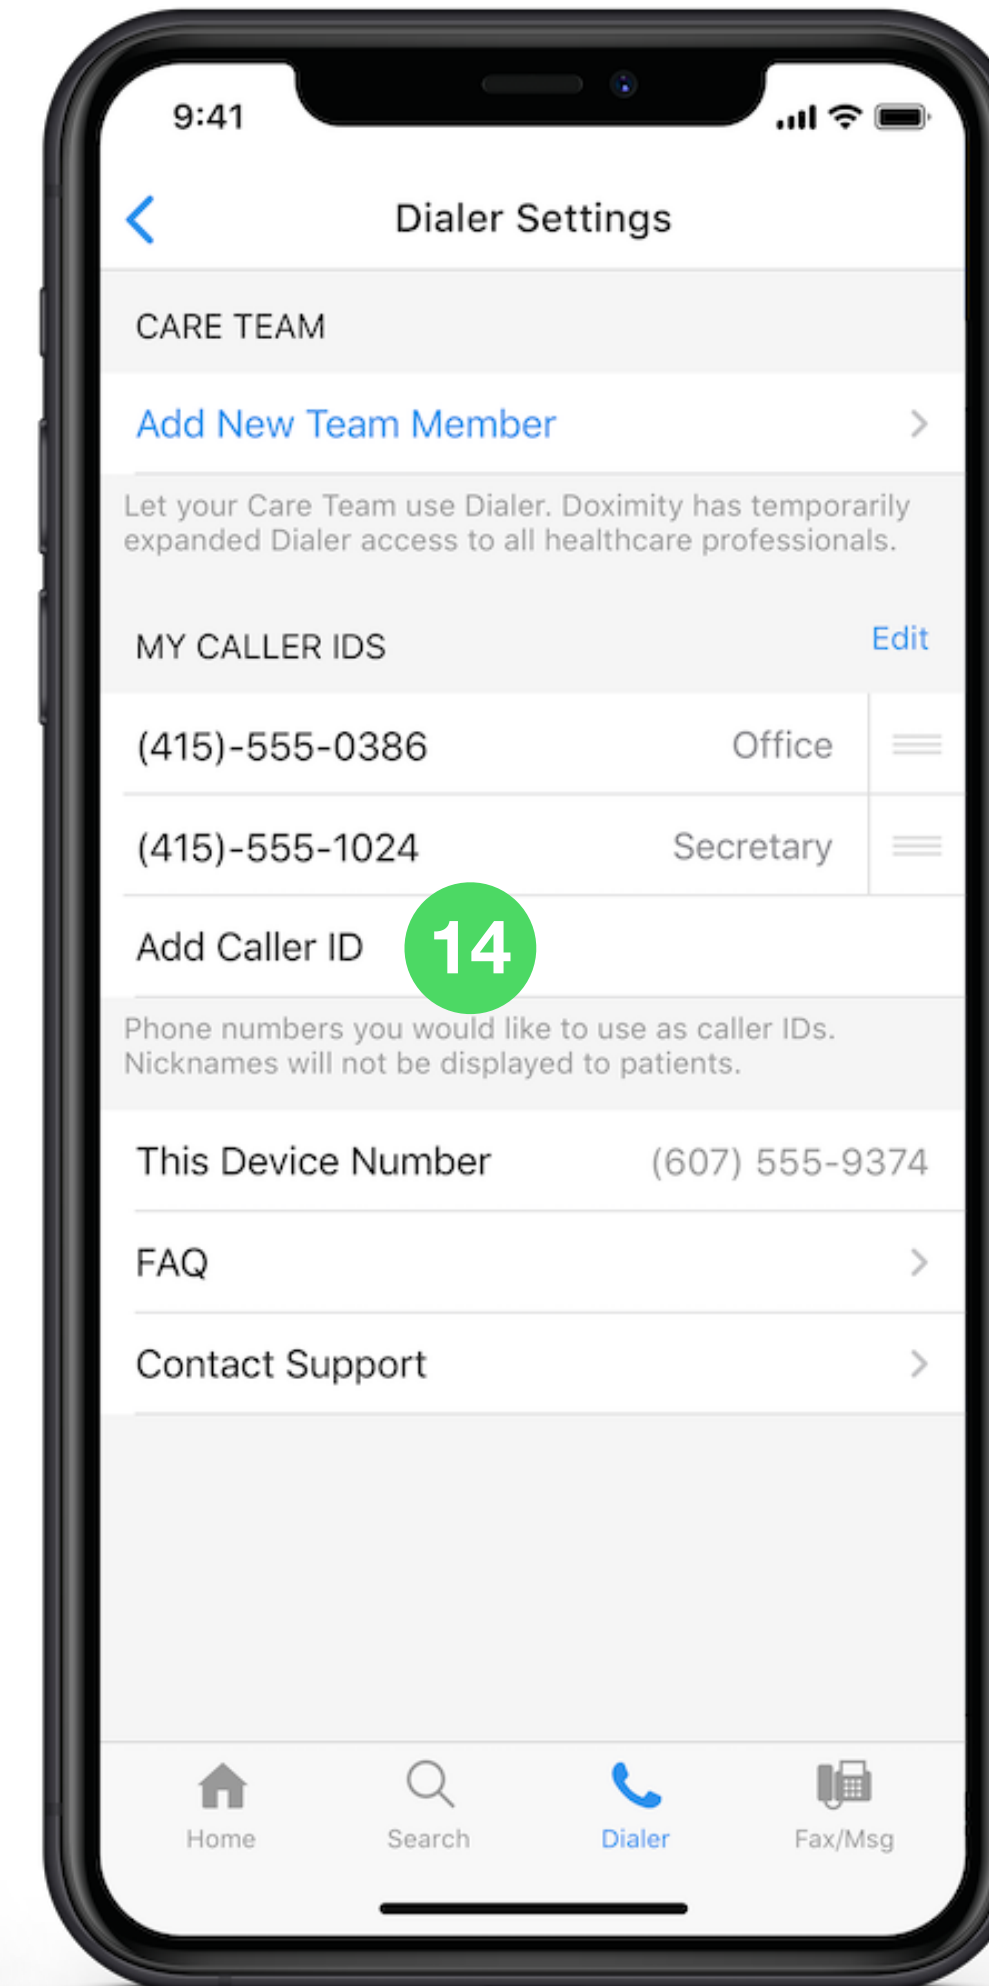

**Note:** This lets us activate Dialer for your phone. Your cell phone number will NOT be revealed when you call patients using Dialer

# Add Your Office Number(s) as Caller ID

- 12 The numbers on the top of your screen is what your patient will see on their Caller ID when called
- 13 To edit your office numbers, tap “Settings”
- 14 Tap “Add Caller ID” or “Edit”
- 15 Enter nickname and phone number, then tap “Save” to store

**Note:** Your patients will NOT see the nicknames assigned to phone numbers

# Calling Your Patients on Dialer

- 16** Choose the number you'd like to display on your patient's Caller ID
  - 17** Dial your patients number by tapping on the green phone icon
  - 18** Tap the "Call" button to place call
- Note:** We use a (415) bridge phone line to connect to your patient's phone number. You will still be routed to their phone number from Step 11.
